II. Board Composition

Size and composition of the Board

There were no changes in the Board composition during the year. The Board consists of five members, out of which three are independent Directors including a Women Director and a Non – Executive Director, which are in line with the requirements of the Act and the Listing Regulations. Your Directors have rich and varied experience in fields of business management, banking and finance, project management, risk management, real estate, corporate governance and bring in extensive knowledge and expertise to the Board. Board provides strategic guidance to the Company and ensures effective monitoring to the management and corporate governance practices.

The Composition of the Board as on March 31, 2017 and other relevant details are as under:

Sr. no.	Name of the Director	DIN	Category
1.	Mr. Rajneesh Agarwal	01273010	Non-Executive Chairman and Independent Director
2.	Ms. Udit Jhunjunwala	00120951	Independent Director
3.	Mr. Sharad Rustagi	07232913	Independent Director
4.	Mr. Sunil Biyani	00006583	Non-Executive Director
5.	Mr. Swapnil Kothari	05235636	Non-Executive Director

No Director is inter-se, related to any other Director on the Board nor is related to the other Key Managerial Personnel of the Company.

Chairman of the Board

Mr. Rajneesh Agarwal, Non-Executive and Independent Director is the Chairman of the Board.

Responsibilities of the Chairman

Chairman is responsible for fostering and promoting the integrity of the Board while nurturing a culture where the Board works harmoniously for the long – term benefit of the Company and all its stakeholders. The Chairman is primarily responsible for ensuring the Board provides effective governance to the Company. In doing so, the Chairman presides over meetings of the Board and of the shareholders of the Company.

The Chairman takes a lead role in managing the Board and facilitating effective communication among Directors. The Chairman provides independent leadership to the Board, identifies guidelines for the conduct and performance of Directors, and oversees the management of the Board's administrative activities such as meetings, schedules, agendas, communication and documentation.

The Chairman actively works with the Nomination, Remuneration and Compensation Committee to plan the Board and Board committees' composition, induct Directors to the Board, participate in the Board effectiveness evaluation process and meet with individual Directors to provide constructive feedback and advice.

Role of the Board of Directors

The primary role of the Board is that of trusteeship to protect and enhance shareholder value through strategic Direction to the Company. As trustees, the Board has fiduciary responsibility to ensure that the Company has clear goals aligned to shareholder value and its growth. The Board exercises its duties with care, skill and diligence and exercises independent judgment. It sets strategic goals and seeks accountability for their fulfilment. It also directs and exercises appropriate control to ensure that the Company is managed in a manner that fulfills stakeholder's aspirations and social expectations.

Independent Directors

The Act and the Listing Regulations defines an "Independent Director" as a person who is not a promoter or employee or one of the Key Managerial personnel (KMP) of the Company and its subsidiaries. The law also states that the person should not have a material pecuniary relationship or transactions with the Company or its subsidiaries, apart from receiving remuneration as an independent Director and we abide by these definitions of independent Director.

The Board includes Directors with independent standing in their respective fields / profession and who can effectively contribute to the Company's business and policy decisions. Their appointment as Independent Directors on the Board is considered by the Nomination, Remuneration and Compensation Committee.

Every Independent Director, at the first meeting of the Board in which he/she participates as a Director and thereafter at the first meeting of the Board in every financial year, gives a declaration that he/she meets the criteria of independence as provided under law.

Selection of new Directors

The Board is instrumental in selection of new Directors. The Board delegates the screening and selection process to the Nomination, Remuneration and Compensation Committee consisting majority of Independent Directors. Nomination, Remuneration and Compensation Committee makes recommendations to the Board on the induction of new Directors.

Familiarization programmes for Independent Directors

Independent Directors are provided with necessary documents, reports and internal policies to enable them to familiarize with the Company's procedures and practices. Periodic presentations are made at the Board and Board Committee Meetings, inter-alia, on the business and performance updates of the Company, business strategy and risks involved.

The independent Directors are updated periodically on all business – related issues and new initiatives. At such meetings, the executive Directors and other members of the senior management share points of view and leadership thoughts on relevant issues.

Meetings of Independent Directors

One meeting of the Independent Directors was held during the year without the presence of the Non-Independent Director or management personnel. Such meetings are conducted informally to enable Independent Directors to discuss matters, inter-alia, pertaining to the Company's affairs and put forth their views to the Board.

Tenure of Directorships

The Board constantly evaluates the contribution of the members and periodically shares updates with the shareholders about re-appointments consistent with applicable statues. The current law in India mandates the retirement of two-third of the Non-Independent Directors (who are liable to retire by rotation) every year, and qualifies the retiring members for reappointment. Executive Directors are appointed by the shareholders for a maximum period of five years, but are eligible for re-appointment upon completion of their term. An independent Director shall hold office for a term of up to five consecutive years on the Board of the Company and shall be eligible for re-appointment for a further terms of 5 years on passing of a special resolution by the Company.

Performance Evaluation

One of the key functions of the Board is to monitor and review the Board evaluation framework. The Board works with the Nomination, Remuneration and Compensation Committee to lay down the evaluation criteria for the performance of the Chairman, the Board, the Board Committees and executive / non-executive / independent Directors through a peer evaluation, excluding the Director being evaluated. The Board carried out the annual performance evaluation for the year ended March 31, 2017.

The Board expressed its satisfaction on the process as well as performance of all Directors, Committees, and Board as a whole.

III. Board Meetings

Scheduling and selection of agenda items

Board meeting dates are finalized in consultation with all the Directors. Minimum four pre-scheduled Board meetings are held annually. Additional Board meetings are convened by giving appropriate notice to address the Company's specific needs. In case of business exigencies or urgency of matters, resolutions are passed by circulation.

The Compliance team drafts the agenda for each meeting, along with explanatory notes, in consultation with Accounts Head and other Directors and distributes these in advance to the Board of Directors. Every Board member can suggest the inclusion of additional items in the agenda. The Board meets at least once a quarter to review the quarterly results and other items on the agenda, and also on the occasion of the Annual General Meetings.

Overview of the Indian Economy:

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organization (CSO) and International Monetary Fund (IMF). The Government of India has forecasted that the Indian economy will grow by 7.1 per cent in FY 2016-17. As per the Economic Survey 2016-17, the Indian economy should grow between 6.75 and 7.5 per cent in FY 2017-18. The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, Reserve Bank of India's (RBI) inflation focus supported by benign global commodity prices.

India's consumer confidence index stood at 136 in the fourth quarter of 2016, topping the global list of countries on the same parameter, as a result of strong consumer sentiment, according to market research agency, Nielsen.

Moody's has affirmed the Government of India's Baa3 rating with a positive outlook stating that the reforms by the government will enable the country perform better compared to its peers over the medium term.

The Food Service Industry:

India's food and beverages (F&B) industry will expand at an average annual pace of 24% to reach Rs.3.8 trillion in sales by the during the year 2016 – 2017. Fast-food joints, which have the largest market share at 45%, will grow by 16.6% a year, said the report by consulting firm Grant Thornton India and lobby group Federation of Indian Chambers of Commerce and Industry (Ficci), followed by casual dining (32% share) expanding 10.1% annually.

Standalone restaurants, which comprise 22% of the market, is the fastest-growing, the report said, while the cafe segment with 12% market share is growing at 10.7% a year. Although fine dining constitutes only 3% of the market, the segment is seeing a renewed interest, particularly from multinational chains, the report said.

Local fast-food firms are expanding faster at about 37% in terms of number of stores, compared with foreign firms growing at 28% a year. The study found that although nearly 70% of the sector is still unorganized, it is changing fast. In the next 4-5 years, the unorganized share is expected to fall to 60%, it said.

Indians spend about half of their total consumption expenditure on food, the report said, which seem to be rising among people between 20 and 25 years of age. "Indian consumers are increasingly dining out, particularly in urban areas. Urbanization, changing lifestyle and food preferences are spurring the organized market," noted the study, adding that about 70% of the young consumers in India are price-sensitive.

The other key driver for the growth in the F&B sector is the rising number of working women and eating-out options.

Road Ahead

The International Monetary Fund (IMF) has cut India's growth forecast for the current fiscal by one percentage point, citing demonetization woes. It sees India ceding the tag of the world's fastest growing major economy to China in FY17.

In an update of its flagship publication the World Economic Outlook, the IMF said India is likely to grow by 6.6% only in FY17, down from 7.6% estimated earlier and marginally behind China that is pegged to grow at 6.7% in 2016.

IMF in its Report stated that in India, the growth forecast for the current (2016-17) and next fiscal year were trimmed by one percentage point and 0.4 percentage point, respectively, primarily due to the temporary negative consumption shock induced by cash shortages and payment disruptions associated with the recent currency note withdrawal and exchange initiative.

Industrial production was up 5.7% in November 2016, exports touched their highest since March 2015 in December 2016 and tax collections have been robust. The World Bank also reduced India's FY17 growth forecast to 7% from 7.6%. The IMF report also sees the impact of note exchange lasting in the next fiscal year as well. The forecast for FY18 has been trimmed by 0.4 per centage points to 7.2%. The forecast for FY19 is unchanged at 7.7%. The forecasts for FY18 and FY19 show India wresting back the fastest-growing economy status from China, whose growth is forecast to slow further to 6.5% in 2017 and 6% in 2018.

Business Environment:

The food service in food courts and restaurants allow customers to experience food that is aesthetically cooked and appealingly presented with ample food portions. An industry as big as the food service provides large direct and indirect employment opportunities and generates revenue for the Government.

Opportunities:

Increase in the Standard of Living: With the high standard of living and the change in the lifestyle of people, more and more consumers are patronizing various restaurants. Restaurants have evolved as places for social gatherings and outings resulting in good opportunities given the evolving dining culture.

Consumer Awareness: With an increase in the number of Indians going abroad and the flurry in domestic tourism, Indian have enjoyed global experiences and cuisines from across the world. Resultantly, Fine Dining restaurants are preferred as they offer better ambience, service and presentation, often on par with global standards.

Disposable Income of a Young Working population: With the young population in the urban areas now having access to large sums of disposable wealth and the advent of the many cuisines, the food trend has shifted from traditional food to upbeat cuisines of the world.

Changing consumer lifestyles: Preferences with an increasing number of women in the workforce, increase in double income households, rising disposable income, growth in nuclear families particularly in urban India, increasing urbanization and higher frequency of eating out, exposure to global media and cuisine, mall and the multiplex boom have all fuelled the growth of the dining business in India.

Challenges:

Rising Food Costs: Food price inflation is a key factor affecting the food services market in India, and is impacted by irregular monsoons and unfavorable demand-supply conditions. It keeps fluctuating and while it affects consumer indulgence across all formats, it also hits the margins realized by players.

Across all food services formats, food costs (raw materials) account for 30-35% of the revenue. The perpetual rise in food costs narrows the players' margins, compelling them to increase menu prices. This in turn accentuates the challenge of retaining customers who are already value-conscious and tend to evaluate all available eating out options carefully.

Fragmented Market, Increasing Competition: The Indian food services market has many small and mid-size unorganized players competing with large chain players. This fragmented market reflects a number of challenges, including the unclear format segmentation, varied consumer options for eating out, and the lack of best practices for food services outlets. There are a number of players who offer products that are more or less similar, at competitive prices. No single player leads the market; and also low consumer loyalty exists.

Shortage of Quality Staff, High Attrition and Increasing Labor Cost: The Indian hospitality industry is highly labor-intensive, but the availability of trained chefs, managerial staff and other support staff is low. According to a study by the Ministry of Tourism, the current supply of skilled/professionally trained manpower is estimated to be ~9% of the total manpower requirement. Given this shortfall of quality manpower and the industry's high attrition rate of 20-25%, the cost of labor is high. To bridge the demand and supply gap, currently players are hiring in huge numbers and increasingly investing in in-house training programs.

High real estate and labor costs impacting store profitability: For over a decade, India has been experiencing an escalation in real estate prices amplified by increasing demand and the availability of easy credit. For food services outlets, real estate (rentals) is the second major cost component after raw materials and accounts for ~12-15% and sometimes even 20% of total revenues.

Over- Licensing: In India, obtaining the requisite licenses, e.g. health license, food safety license, police license, No Objection Certificate (NOC), from the fire department and the state pollution control board, etc. is a major obstacle hindering the smooth operations of a restaurant. The process is not centralized as yet and requires filing applications with individual stakeholders, which involves a lot of paperwork and is a time-consuming activity. The licenses required to start a restaurant are the same throughout India, except in some states like Maharashtra. A player needs approximately 12-15 licenses just to open a restaurant each from a government department. In comparison, the licensing requirements internationally are not as intricate as shown below.

Inflation and Cost Pressures: To counter the rising prices the company is looking at further leveraging the economies of scale available by opening centralized kitchen facilities in key locations.

Financial performance and out look

Total Income: The Company achieved total revenue of Rs. 4866.12 Lakhs during the financial year ended March 31, 2017.

Profit/Loss after Tax: The Company recorded loss of Rs. 1421.33 Lakhs for financial year ended March 31, 2017.

Considering the huge cost involved in operation and maintenance, the Company consolidated its operations to sectors that are profits making in terms of location and formats. This has reduced the operational cost significantly. The Company may focus more on such formats and locations to strengthen the financials and may take up additional business activities in line with the objects of the Company.

Internal Control Systems and their Adequacy: At GECL, internal control systems and procedure are adequately commensurate with the size and structure of the business. The operating and business control procedures have been planned and implemented in a manner that ensures efficient use of resources, as well as compliance with procedures and regulatory requirements.

The Company has engaged a firm of Internal Auditors to carry out audits extensively throughout the year with the objective of testing the adequacy and effectiveness of internal controls and recommending improvements.

The Audit Committee hold discussions with auditors periodically about internal control systems, the scope of audit including the observations and reviews of the quarterly, half yearly and annual financial statements before submission to the Board. The Audit Committee ensures compliance of internal control systems.

Human Resources:

The industrial relations across different locations of the Company were cordial during the year. The Company has, over the last few months, built the team necessary to be able to build and execute the vision that has been articulated in the preceding paragraphs. The total number of employees of the Company as on March 31, 2017 stood at 18.

Cautionary Statement:

Statements in the Management Discussion and Analysis describing the Company's objectives, expectations or predictions may be forward looking within the meaning of applicable securities, laws and regulations. Actual results may differ materially from those expressed in the statement. Important factors that could influence the Company's operations include domestic and global; supplies and demand conditions affecting prices of final product and service, input availability and prices, changes in government regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.

We have audited the accompanying financial statements of Galaxy Entertainment Corporation Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the statement of changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including Other Comprehensive Income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2017, and its Loss (including other comprehensive income), its cash flows and changes in equity for the year ended on that date.

EMPHASIS OF MATTERS

We draw attention to Note No. 3 to the financial statement wherein the management has represented that the recoverable amount of fixed assets within the meaning of Ind AS 36 Impairment of Assets is less than the carrying value and as such impairment loss of Rs.652.04 Lakhs is recognized in the financial statement.

We draw attention to Note 21(iii) to the financial statement on capital goods imported under the Export Promotion Capital Goods Scheme of the Government of India, at concessional rates of duty, on an undertaking to fulfil export obligation by October 2015 for which Company had sought an extension with Directorate General of Foreign Trade. The company has provided for the custom duty of Rs.653.36 Lakhs (excluding interest) during the year.

We draw attention to Note No. 22 to the financial statement, wherein the Company has written off fixed assets and written back the credit balance during the year based on order passed by Hon'ble High Court of Bombay dated July 20, 2016 dismissing the winding up petition filed by the creditor. However, an appeal has been filed against the said order by the Creditor (petitioner) which is pending for admission.

Without qualifying our opinion, we draw attention to the financial statement wherein the Company has reported a net loss of Rs.1,421.33/- Lakhs during the year particularly on account of impairment of fixed assets and provision made for contingencies in respect of export obligation. The accumulated losses of the company exceeded its paid-up capital

and reserves and the company's current liabilities exceeded its current assets. The management of the company has represented that the business of the company cannot be affected materially on account of the aforesaid provisions and also the going concern concept. Further as informed to us the Company has entered into new business and is hopeful of generating revenue.

Our Opinion is not modified in respect of these matters

OTHER MATTERS

The financial information for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2015 included in these financial statements, are based on previously issued statutory financial statements for the years ended March 31, 2016 and March 31, 2015 prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (as amended) which were audited by us, on which we expressed an unmodified opinion dated May 19, 2016 and May 29, 2015 respectively. The adjustments to those financial statements for the differences in accounting principles adopted by the Company on transition have been audited by us.

Our Opinion is not modified in respect of these matters

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act and according to the information and explanation given to us, we give in the "**Annexure B**" a statement on the matters specified in the paragraph 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2017, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017, from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and operating effectiveness of such controls, refer to our separate Report in "**Annexure A**".
 - g) With respect to the other matters to be included in Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - i. The Company has disclosed the impact of pending litigations as at March 31, 2017 on its financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts hence the question of making a provision for any resulting material foreseeable losses does not arise; and
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. The Company has provided requisite disclosures in the financial statements as to holding as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016, on the basis of information available with the Company. Based on audit procedures, and relying on management's representation, we report that disclosures are in accordance with the books of accounts maintained by the Company and as produced to us by the Management – Refer Note No. 26.

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of Galaxy Entertainment Corporation Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of Management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICES AND NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1) CORPORATE INFORMATION

Galaxy Entertainment Corporation Limited (referred to as "GECL" or "the Company") was incorporated on August 13, 1981. It operates leisure and entertainment centers across the country.

As at the balance sheet date it has four centers offering a variety of facilities such as bowling, pool and video games, restaurant services, bakery, food court etc.

In addition to Leisure and Entertainment Services the company also deals in trading in fabric.

2) SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation of financial statements

(i) Compliance with Ind AS:

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

These financial statements for the year ended 31st March, 2017 are the first financials with comparatives, prepared under Ind AS. For all previous periods including the year ended 31st March, 2016, the Company had prepared its financial statements in accordance with the accounting standards notified under companies (Accounting Standard) Rule, 2006 (as amended) and other relevant provisions of the Act (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India.

The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1st April, 2015 being the date of transition to Ind AS.

(ii) Historical cost convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- a. defined benefit plans - plan assets measured at fair value,

(iii) Current non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

(iv) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest thousand as per the requirement of Schedule III, unless otherwise stated.

(b) Use of estimates and judgments

The estimates and judgments used in preparation of financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the company believes to be reasonable under the existing circumstances. Difference between actual results and estimates are recognized in the period in which the results are materialized.

(c) Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the property, plant and equipment which are ready for use as intended by the management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the property, plant and equipment will flow to the company and the cost of the property, plant and equipment can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit or Loss during the reporting period in which they are incurred. Assets classified as held for sale are reported at the lower of the carrying value or the fair value less cost to sell.

Transition to Ind AS

On transition to Ind AS, the company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1st April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

on Financial Statements for the year ended March 31, 2017

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives. The estimated useful lives of assets are as follows:

Asset Class Useful Life

Plant & Machinery	15 Years
Furniture & Fixtures	10 Years
Computer	3 Years
Improvement to Licensed Premises	10 Years

The useful lives have been determined as specified by Schedule II to the Companies Act; 2013. The residual values are not more than 5% of the original cost of the asset. The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss, if any.

(d) Intangible Assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on straight line basis from the date they are available for use.

Transition to Ind AS

On transition to Ind AS, the company has elected to continue with the carrying value of all of its Intangibles recognized as at 1st April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the Intangibles

(e) Impairment of non-financial assets

An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the assets is increased to its revised recoverable amount, provided that this amount doesn't exceed the carrying amount that would have been determined, had no impairment loss being recognized for the asset in prior years.

(f) Investments and other financial assets

(i) Classification

The company classifies its financial assets in the following measurement categories:

- a. Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- b. Those measured at amortized cost.

The classification depends on the company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(ii) Measurement

At initial recognition, the company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt Instruments:

A subsequent measurement of debt instruments depends on the company's business model for managing the assets and the cash flow characteristics of the asset. The company classify its debts instruments in to following categories:

Amortised Cost: Assets that are held for collection of contractual cash flows represents solely payments of principal and interest are measured at amortised cost.

on Financial Statements for the year ended March 31, 2017

Fair value through other comprehensive income: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the asset's cash flow present solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/ (losses).

Fair value through profit and loss: Assets that do not meet the criteria for amortised cost are measured at fair value through Statements of Profit and Loss.

Equity Instrument:

The Company measures all equity investment at fair value except investment in subsidiaries, joint ventures and associates which are measured at cost less impairment if any. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss.

(iii) Impairment of financial asset: The Company assesses on a forward looking basis the expected credit losses associated with its assets. The Impairment methodology applied depends on whether there has been a significant increase in credit risk.

(iv) De-recognition of financial assets

A financial asset is derecognized only when

- a. The company has transferred the rights to receive cash flows from the financial asset or
- b. Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

(g) Income recognition

(i) Interest income: Interest income from debt instruments is recognized using the effective interest rate method.

(ii) Dividends: Dividends are recognized in profit or loss only when the right to receive payment is established

(h) Inventories

Inventories representing restaurant supplies, consumables and redemption items are valued at cost determined on weighted average basis or net realizable value, whichever is lower.

Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(i) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

(i) Sale of services: The Company's revenues from leisure and entertainment services primarily include income from bowling, pool and video games and restaurant services. Revenues are recognized when the services are rendered and when no significant uncertainty as to measurement or collectibles exists.

Customers visiting the Company's leisure and entertainment centre and restaurants avail the facilities against payment in cash or by credit card. The Company also enables corporate entities to host private parties at its centers, for a negotiated price, which is billed to customers on completion of the event.

The company offers recharge card to the customers, against which services can be availed in future, to that extent revenue is deferred by the company and recognized as and when services are rendered.

(ii) Sale of Goods: sales are recognized at net of returns and trade discounts, taxes as applicable on dispatch of goods.

(j) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employee's service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

on Financial Statements for the year ended March 31, 2017

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. An actuarial valuation is obtained at the end of the reporting period. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognized as an item of Other Comprehensive Income in the statement of profit and loss.

(iii) Post-employment obligations

The company operates the following post-employment schemes:

- a. Defined benefit plans such as gratuity and
- b. Defined contribution plans such as provident fund.

Gratuity obligations: The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contribution plans: Defined contribution plans such as provident fund etc are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(vi) Termination benefits

Termination benefits are recognized as and when incurred. However, the termination benefits which fall due for more than twelve months after the balance sheet date are discounted using the applicable discount rate.

(k) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

on Financial Statements for the year ended March 31, 2017

Current and deferred tax is recognized in statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognized as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(l) Foreign Currency Translation

Transactions in foreign currencies are recognized at the prevailing exchange rates on the transaction dates. Realized gains and losses on settlement of foreign currency transactions are recognized in the Statement of Profit and Loss. Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognized in the Statement of Profit and Loss.

(m) Lease – Operating

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases.

(n) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

(o) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(p) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognized for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognized for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognized. A gain or loss not previously recognized by the date of the sale of the non-current asset (or disposal group) is recognized at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognized.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

(q) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

on Financial Statements for the year ended March 31, 2017

(r) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(s) Provisions and Contingent Liabilities

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

(t) Earnings per share

(i) Basic earnings per share

Basic earnings per share are calculated by dividing:

- a) The profit attributable to owners of the company
- b) By the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

(ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- a) The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- b) The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(u) Recent accounting pronouncements:

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are not applicable to the company.

The fair value of financial instruments referred above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The categories used are as follows :

Level 1: This hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Valuation processes :

For level 2 financial instruments the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values largely due to short term maturities of the instruments.

The fair values of other financial assets and borrowings other than bank borrowings were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

The fair value of the long-term borrowing from bank with floating-rate of interest is not impacted due to interest rate changes and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the company's borrowing (since the date of inception of the loans). Further, the company has no long-term Borrowings with fixed rate of interest.

Note 30: Financial risk management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk are reviewed regularly to reflect changes in market conditions and the Company's activities.

A. Market Risks

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk.

The company is not significantly exposed to foreign currency risk. Moreover, the company has no investments in equity shares thus the company is not exposed to price risk also.

(a) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, management of the Company performs a corporate interest rate risk.

According to the Company interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis point increase or 20 basis point decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

B. Credit Risks

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities primarily trade receivables and from its loans and advances and other financial instruments.

Trade receivables

Customer credit risk is managed by each business unit subject to the company's established policy, procedures and control relating to customer credit risk management.

The Company measures the expected credit loss of trade receivables and loan & advances customers wise based on historical trend. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

C. Liquidity Risk:

Liquidity risk is the risk that the company will face in meeting its obligations associated with its financial liabilities. The company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. A material and sustained shortfall in our cash flow could undermine the company's credit rating and impair investor confidence.

The following table shows the maturity analysis of the company's financial liabilities based on contractually agreed undiscounted cash flows as at the balance sheet date:

Note 36: First-time adoption of Ind AS

Transition to Ind AS

These are the first financial statements prepared in accordance with IND AS

The accounting policies set out in Note 2 have been applied in preparing the financial statements for the year ended 31 March 2017, the comparative information presented in these financial statements for the year ended 31 March 2016 and in the preparation of an opening Ind AS Balance Sheet at 1st April 2015 (the date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

Set out below are the applicable Ind AS 101 optional exemptions availed as applicable and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A. Optional Exemptions availed

(i) Deemed cost :

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

(B) Applicable mandatory exceptions:

(i) Estimates :

An entity's estimate in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP.

(ii) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

B. Transition to Ind AS - Reconciliations

Ind AS 101 requires an entity to reconcile equity and total comprehensive income for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

C. Notes to first time adoption:

(i) Deferment of Revenue:

Under Ind AS, revenue is recognised when services is provided i.e. when the games are played over the period of time. Whereas under previous GAAP revenue from gaming business was recognised as and when prepaid gaming cards are purchased or recharged. As a result of this change, the profit for the year ended 31st March, 2016 increased by ₹ 510.37 thousands (1st April, 2015 ₹ 1,297.66 thousands). Consequently, the total equity as at 31st March, 2016 increased by ₹ 787.29 thousands (1st April, 2015 ₹ 1,297.66 thousands) and profit for the year ended 31st March, 2016 increased by ₹ 510.37 thousands.

(ii) Measurement of Term Loan at amortised cost:

Ind AS 109 requires transaction costs incurred towards origination of term loans to be deducted from the carrying amount of term loans on initial recognition. These costs are recognised in the profit or loss over the tenure of the term loans as part of the interest expense by applying the effective interest rate method.

Under previous GAAP, these transaction costs were charged to profit or loss as and when incurred. Accordingly, borrowings as at 31st March, 2016 have been reduced by ₹ 307.98 thousands (1st April, 2015 ₹ 556.93 thousands) with a corresponding adjustment to retained earnings. The total equity increased by an equivalent amount. The profit for the year ended 31st March, 2016 decreased by ₹ 248.96 thousands as a result of the additional interest expense.

(iii) Measurement of Other Borrowings at fair value:

Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method.

Under previous GAAP, these transaction costs were charged to profit or loss as and when incurred. Accordingly, borrowings as at 31st March, 2016 have been reduced by ₹ 5,680.24 thousands (1st April, 2015 ₹ Nil) with a corresponding adjustment to retained earnings. The total equity increased by an equivalent amount. The profit for the year ended 31st March, 2016 increased by ₹ 5,680.24 thousands as a result of the additional interest expense.

(iv) Provision for Expected Credit Loss - Sundry Debtors:

As per Ind AS 109, the company is required to apply expected credit loss model for recognising the allowance for doubtful debts. As a result, the allowance for doubtful debts increased by ₹ 493.46 thousands as at 31st March, 2016 (1st April, 2015 ₹ 718.94 thousands). Consequently, the total equity as at 31st March, 2016 decreased by ₹ 1,212.40 thousands (1st April, 2015 ₹ 718.94 thousands) and profit for the year ended 31st March, 2016 decreased by ₹ 493.46 thousands.

(v) Provision for Expected Credit Loss - Loan & Advances:

As per Ind AS 109, the company is required to apply expected credit loss model for recognising the allowance for doubtful loans and advances. As a result, the allowance for doubtful loans and advances decreased by ₹ 857.13 thousands as at 31st March, 2016 (1st April, 2015 ₹ 2,569.05 thousands). Consequently, the total equity as at 31st March, 2016 decreased by ₹ 1,711.92 thousands (1st April, 2015 ₹ 2,569.05 thousands) and profit for the year ended 31st March, 2016 increased by ₹ 857.13 thousands.

on Financial Statements for the year ended March 31, 2017

(vi) Remeasurements of post-employment benefit obligations:

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended 31st March, 2016 increased by ₹ 1,087.37 thousands. There is no impact on the total equity as at 31st March, 2016.

(vii) Retained earnings:

Retained earnings as at 1st April, 2015 has been adjusted consequent to the above Ind AS transition adjustments.

(viii) The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31st March 2016 as compared with the previous GAAP
